

Faithful Catholics of MD/DC, Inc.

My dear fellow Catholic:

I see on your car a sign of support for a political candidate who espouses views on non-negotiable life issues that are at serious variance with Catholic Church teaching. I trust that you are unaware of these serious shortcomings due to the emphasis that his/her campaign is putting forth to voters. This emphasis may have to do with issues where the politician is in agreement with the Church, but the agreed-upon issues are matters that are of lesser import than the non-negotiable life issues.

What are these issues? They are:

- 1) abortion
- 2) euthanasia
- 3) embryonic/fetal stem cell research
- 4) human cloning
- 5) homosexual "marriage" or other facilitations of the "gay" lifestyle

Space does not allow a full treatment of these serious matters and why the Church opposes the five afore-mentioned actions. Suffice it to say that all these matters are sins against the engenderment of human life and the use of the faculties which God has given us to cooperate with such engenderment. Please refer to the websites listed below for more detailed discussions of these matters.

- 1) <http://www.saviorquest.com/news1/catholicvoters.htm>
- 2) http://www.ewtn.com/vote/brief_catechism.htm

Then research your candidates' stands on these important matters.

Important note:

The pastor of this Church and other parish personnel did not give authorization for this information to be distributed to you. In all likelihood, they are unaware of this. Thus, complaints to them will be to no avail. Please accept this information for what it is: a goodwill attempt to provide you with additional input for your consideration on Election Day. Of course, you are free to disregard it, if you see fit. I hope such is not the case. Thank you.
